

VALET POINT

- Parking is a omnipresent problem particularly in the central and busy parts of any town is an understatement.
- The problem is going to increase as rate of public transport growth is always behind the population needs in almost all developed and developing countries
- The number of personal four wheelers will continue to rise and thus the problem of parking will continue to rise in coming years.

WHY CHOOSE US

Smooth management of valet parking process for Providers, Drivers (Parking Agents) and Vehicle Owners. Multi site management, Site and agent allocation. Parking In and Out reports. Proactive alerts for vehicle pickup and location information of the parked vehicle. B2B clients and B2C customers management.
